ABOUT
HAUSSTROM GROUP

Hausstrom is an integrated energy and electrical solutions company serving homes, businesses and industries.

Across power backup, power distribution, consumer goods, mobility and service, we provide dependable products backed by structured support.

Hausstrom Group operates a multi-brand ecosystem supporting different segments of the power and electrical market.

Brands within the ecosystem include:

OUR VISION & MISSION

Our Vision

To become the most trusted and accessible power solutions brand across Africa.

Our Mission

To deliver innovative, durable and safe electrical and power backup solutions that meet the evolving needs of our customers while supporting local economies.

THE HAUSSTROM STANDARD

Every Hausstrom Automotive Battery is backed by the values that guide how we build products, serve customers and work with our partners.

AWARDS & CERTIFICATIONS

Hausstrom's approach to quality is supported by documented processes, product information and relevant quality approvals. Our approach is built around consistent product quality, responsible manufacturing, continuous improvement and customer confidence.

BUILT FOR DAILY MOVEMENT
FOR DAILY TRAFFIC, HEAT AND HEAVY USE.

Every journey depends on one simple thing: your vehicle must start when it is time to move. From the daily commute to commercial deliveries, fleet operations and long-distance travel, Hausstrom Automotive Batteries are built to support the movement that keeps people and businesses going.

	For Cars: Dependable starting power for everyday driving.
	For Commercial Vehicles: Built for the demands of work, deliveries and daily operations.
	For Fleet Needs: Reliable battery options for vehicles that cannot afford downtime.

UNDERSTANDING YOUR BATTERY
DRIVE WITH CONFIDENCE.

HAUS STROM
ENERGIZING YOUR HOME & BUSINESS

The right battery is not simply the biggest battery. It is the battery that matches your vehicle's required specification. Before purchase or installation, understand these key details:

BATTERY CODE
CMF57575 Unique code for correct identification and fitment.

VOLTAGE (V)
12V Confirms the electrical system voltage required by the vehicle.

TERMINAL LAYOUT (+) (-)
Terminal positions must align correctly with the vehicle cables.

CCA
575A Cold Cranking Amps. An industry measure used to indicate the battery's starting capability.

CAPACITY (Ah)
75Ah Shows the battery's capacity rating. Always use the Ah range recommended for your vehicle.

HAUSSTROM AUTOMOTIVE
TECHNICAL SPECIFICATIONS.

RELIABLE EVERYDAY STARTING POWER.

Hausstrom Automotive Batteries have been designed for dependable everyday replacement demand across passenger cars, taxis, pickups, light commercial vehicles and selected heavy-duty applications.

STORAGE & HANDLING
KEEP YOUR BATTERY SAFE.

HAUS STROM
ENERGIZING YOUR HOME & BUSINESS

KEEP IT READY TO PERFORM.

- Store batteries upright in a cool, dry and ventilated place.
- Do not tilt, overturn, damage or tamper with the battery casing.
- Follow the instructions on the battery label and the vehicle manufacturer's recommendations.
- Keep batteries away from direct sunlight, heat sources, flames and sparks.
- Check the battery for visible damage before installation or use.
- For installation, charging or fault checks, use a qualified technician where necessary.
- Keep terminals clean, dry and protected from contact with metal objects.
- Use the correct battery code, dimensions and terminal layout for the vehicle.

SUPPORT & WARRANTY BACKED BEYOND THE SALE.

HAUS STROM
ENERGIZING YOUR HOME & BUSINESS

SOLD WITH WARRANTY.

A Hausstrom Automotive Battery is more than a product on the shelf. It is a product supported by a clear route for questions, warranty enquiries and customer assistance.

SUPPORT IS AVAILABLE FOR:

- Product information
- Battery fitment guidance
- Warranty enquiries
- Purchase and product verification
- Dealer and customer support
- Technical escalation where required

Warranty terms and conditions apply.

WHEN TO REPLACE YOUR BATTERY DON'T WAIT FOR A NO-START MOMENT.

HAUS STROM
ENERGIZING YOUR HOME & BUSINESS

CHECK EARLY. REPLACE RIGHT. KEEP MOVING.

SLOW ENGINE START
The engine takes longer than usual to start.

CLICKING SOUND WHEN STARTING
You hear clicks when turning the key or pressing the start button.

DIM HEADLIGHTS
Headlights appear weak before the engine starts.

ELECTRICAL FEATURES ACTING WEAK
Power windows, dashboard lights, radio or other vehicle electronics respond slowly.

BATTERY WARNING LIGHT
The battery warning light stays on or comes up repeatedly.

VISIBLE BATTERY DAMAGE
Swollen casing, cracks, leaks or heavily corroded terminals should be checked immediately.
